

**Mark Street Surgery**

**Year ended 31 March 2018**

**Publication of GP Net Earnings**

*All GP practices are required to declare the mean earnings (e.g. average pay) for GPs working to deliver NHS services to patients at each practice.*

*The average pay for GPs working in Mark Street Surgery in the last financial year was £99,686 before tax and National Insurance. This is for 2 full time GPs and 2 part time GPs.*

*However, it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used to form any judgment about GP earnings, nor to make any comparison with any other practice.*
